R5.3 Questionnaire for the evaluation of trainers

Introduction

This Questionnaire is developed to allow the ASAP partners to assess the applicant trainers' suitability for their role. It is created to ensure that the selection of trainers will reflect equality of opportunities and the procedure will be transparent and based only on established criteria, such as academic and professional qualifications in the field, previous experience, other relevant skills, etc. Through the utilization of the Questionnaire, partners will select trainers of the highest potential, ensuring the high quality of the project's results.

The Questionnaire will be used as an online tool (through Google Forms) to reach as many potential applicants as possible. It will be available in English, Greek, Italian, and Spanish.
