R5.4 Questionnaire for the evaluation of trainees

Introduction

This Questionnaire is developed to allow the ASAP partners to assess potential trainees and select those who are most suitable to participate in the training. Its main objective is to ensure equality of opportunities and transparency throughout the selection process. It will evaluate the applicant trainees' commitment to the training programme objectives, while at the same time ensure that extra points will be awarded to applicants at risk of being excluded. These are in particular people with special needs and abilities, people coming from disadvantaged backgrounds, and people facing personal difficulties or obstacles that limit or prevent them from taking part in transnational projects.

The Questionnaire will be used as an online tool (through Google Forms) to reach as many potential applicants as possible. It will be available in English, Greek, Italian, and Spanish.
